

SMART Board interactive whiteboard

Productivity tools go beyond desks

To be productive, groups need to use networks, files and websites – no matter where they are. Put this information at your group's fingertips with the SMART Board™ interactive whiteboard, so groups can work with the information they need, when they need it.

The SMART Board interactive whiteboard connects to a computer or collaboration appliance and a projector. With the touch of a finger, group members can interact with computer materials and their finger becomes the mouse. They can write over anything with digital ink and save their notes to a single file for easy distribution. They can wirelessly connect laptops and transfer control of the interactive whiteboard between users.

Upgrading your SMART hardware is easy. The expansion slot allows for the addition of other SMART products, such as the SystemOn expansion module, ensuring that as the organization grows, the SMART Board interactive whiteboard grows with it.

Put it to work for you

How can it help your organization? That depends on what you do.

Project managers capture progress notes and track decisions, then save the notes and e-mail them to stakeholders as a progress update. Designers use it to present plans to clients and incorporate their feedback immediately, saving valuable time during the design process. Fire departments create training simulators – ensuring staff receive realistic but safe training. Lawyers grab jurors' attention and help them understand evidence by presenting and interacting with the material. Regardless of where you are and what you do, the SMART Board interactive whiteboard can help maximize productivity.

Components

- 1** Touch-sensitive surface
- 2** Expansion slot
- 3** Pens
- 4** Eraser
- 5** On-Screen Keyboard, right mouse and help buttons
- 6** SMART Pen Tray
- 7** USB connection

Dimensions

Active screen size

Wide format

Model	area (diagonal)
690	94" (238.8 cm)
685	87" (221.0 cm)

Active screen size

Standard format

Model	area (diagonal)
680	77" (195.6 cm)
660	64" (162.6 cm)
640	48" (121.9 cm)

Key features

- **Touch system** – Write, erase and perform mouse functions with your finger, a pen or an eraser – you need no proprietary tools.
- **SMART Pen Tray** – Pick up a pen or the eraser, and the pen tray automatically detects which tool you've selected. Buttons activate the On-Screen Keyboard, the right-click and help functions.
- **Digital ink** – Write in digital ink over applications, websites and videos.
- **Save function** – Instantly capture and save notes.
- **Durable surface** – The hard-coated polyester surface is tear proof, optimized for projection, compatible with dry-erase markers and easily cleaned with whiteboard cleaner.
- **Active screen size** – Available in three standard sizes or two wide-screen formats.
- **Wall-mount bracket** – Install your SMART Board interactive whiteboard simply and securely.
- **USB connection** – Easily connect the SMART Board interactive whiteboard to your computer.
- **Expansion slot** – Use this interface to add future hardware, such as the SystemOn expansion module.
- **Warranty** – Five years upon product registration, two years standard.
